

PMX900HD

PRO
SERIES

Full Motion TV Mount

PRODUCT DESCRIPTION

Designed for screens up to 140", PMX900HD gives you precise control over your panel's placement. With 22" of horizontal shift and 2" of vertical adjustment, you can perfectly nestle your TV within a recess or directly above a center channel - even after it's mounted. Its oversized 1000x700 VESA interface ensures compatibility with the largest displays available, while its extra-wide wall plate spans up to three studs for ultra-secure mounting. A generous 33" of extension provides the reach needed for big swivels and easy access to inputs or cabling. Despite its heavy-duty capabilities, PMX900HD delivers a best-in-class profile of 3" for a clean, finished look. The overbuilt toolless tilt mechanism allows you to make on-the-fly adjustments to your display, then confidently locks it in place.
